

# Introduction

Monday, February 1, 2016 11:09 PM

The challenge will use the following CTF challenge:

<https://stripe.com/blog/capture-the-flag>

We currently have 13 teams registered (as of 2/1/16) This challenge should accommodate an unlimited number of teams running in the same VM and make it very easy for us to set up and not have multiple copies of machines to update/maintain.

Info available by googling "theflagl0eFTtT5oi0nOTxO5"

Notes to follow.

Initial login to challenge (for first time setup only): level01 / e9gx26YEb2
